

Globanet Technical Services

Comprehensive and Proven Enterprise Vault Consulting Services

Leverage Globanet's Experience and History with Symantec Enterprise Vault

As the first certified Enterprise Vault consultant in North America (1999), Globanet has carried out more than 300 Enterprise Vault projects, assisting clients of many sizes, and in a wide range of industries.

Because Enterprise Vault (EV) is our main focus, we have been able to develop a comprehensive, powerful, yet unique set of EV-related offerings:

- **Technical Services** – Our large team of engineers handle all aspects of EV, including pre-sales, design work, installations, deployments, migrations, and training
- **Custom Development** – As one of the largest EV software development practices, we have extensive experience in developing custom solutions around Enterprise Vault APIs
- **Portfolio of Enterprise Vault Tools** – Our proprietary software tools facilitate everything from deployments, messaging compliance, moving archives, and optimization of EV

Whether you are an organization looking for EV expertise, or a fellow Symantec Channel Partner looking to supplement your EV service capabilities, give us a call.
